Determination of overall migration test in distilled water at 40°C for 24 h (C.M.102-78 and D.M. 06-04-2004, n.174) - LAW LIMIT 60	< LQ			mg/kg	6,0		Circ Min San n° 102 02/12/1978 All III; DM n° 174 06/04/2004 GU n° 166 17/07/2004	15/04/2016

END TEST REPORT

The original document is a PDF file with Digital Signature: 16C20901-In-0-DigitalSignature.pdf

Notes and method reference:

< LQ: = lower than Quantification Limit. Please note that results expressed as '<LQ' may not indicate the absence of the searched parameters in the sample.

U: the reported uncertainty is the expanded uncertainty calculated using a coverage factor equal to 2 which gives a reliability of approximately 95%. For microbiological detections it is reported either the lower and the upper bounds of the confidence interval with a probability of 95% K=2 or the confidence interval itself.

Results coming from microbiological tests are calculated according to the Standard ISO 7218:2007/Amd 1:2013. If the results are reported as <4 (CFU/ml) or <40 (CFU/g), this means that the microorganisms are present in the sample but in amounts less than 4 CFU/ml or 40 CFU/g respectively.

LQ: Quantification Limit. It is the lowest analyte concentration which can be detected at an acceptable precision (repeatability) and accuracy, under well defined conditions.

LD: Detection Limit. It is the lowest analyte concentration which can be detected but not necessarily quantified, under well defined conditions.

Conformity evaluation: values not complying with laws, decrees, national and EU regulations or specifications supplied by the customer are evaluated case by case, also taking into consideration the uncertainty of measure for each single test and the regulations on rounding-off of values, and pointed out when considered as "non conform".

Rec %: Recovery % "+" means that the recovery has been applied to the result. The numeric results between brackets (..) after the expression <LQ are purely indicative of traces that cannot be exactly quantified.

TEST REPORT VALID FOR ALL LEGAL PURPOSES (Italian R.D. 1-3-1928 n°842 (article 16), - Italian Law 19-7-1957 n°679 articles 16 and 18, Italian Ministerial Decree 25-3-1986).

Test Report issued according to the 17025:2005 Standard

DATA and SAMPLE STORAGE: Raw data, chromatographic paths and instrumental reports are stored for 5 years. One control sample is stored for 2 months.

Data expressed in this test report refer only to the sample tested in the laboratory. The description or any other reference concerning the sample are declared by the customer. This Test Report cannot be reproduced except in full. Partial reproductions must be authorized in writing by our laboratory.

SAMPLE **16C20901**

Description provided by Customer: TUBO IN PELD NATURALE E TAPPI - LOTTO L0673/16 - DATA ARRIVO CAMPIONE 31/03/2016, PRELIEVO ESEGUITO DA: COMMITTENTE, TRASPORTO EFFETTUATO DA: CORRIERE.
Sample Condition on Receipt: Room temperature

EVALUATION OF RESULTS:

On the base of the tests performed, the sample complies with the overall migration limit set by Decreto Ministeriale (Ministry Decree) n° 174 of 06/04/2004, concerning materials and objects which may be used in treatment plants and distribution systems for water intended for human consumption.
